Subject: GIS shape files portland harbor and sampled beaches
Date: 01/05/2011 04:34 PM

All,

I am working on the Final Draft of the Portland Harbor Public Health Assessment and would like to make a better map than the one that is in the report now. We have GIS capability here and would like to try to make our own map, and it would give us a big head start if you could share with us the shape files for the study area base map and the sample beaches. I don't think we need any ownership or tax lot data.

Thanks very much. I'm working on this map this week, so the sooner you can send me the files, the better.

Thanks again,

David Farrer
